

Troops,

We are currently accepting police equipment like bullet proof vests, flashlights, batons and boots to help the local law enforcement district in **Port-Au-Prince/Croix-Des-Bouquets**. As we are all aware, early on this year Haiti was impacted by tragic earthquake catastrophe and consequently sustained a great loss. This impact has left both law enforcement personal and the citizens of Haiti in desperate needs.

We currently have two large shipping containers stationed at PBSO District 14, 120 North "G" Street, in Lake Worth, Florida, that we are going to ship to Haiti in the very near future. Any equipment you may be able to spare, whether outdated or outmoded, will be greatly appreciated if you are able to donate it toward this cause. We feel that by helping the Haitian police force, we can *indirectly* help the most people in Haiti who are still suffering immensely, and who are very vulnerable without an equipped and capable police force. Furthermore, I have attached a list with some of the basic necessities that the quake victim can benefit from the most. If there is any question, do not hesitate to contact Sgt. Ponce or me.

Best Regards,

D/S Patrick Desir
